1995 V6

One of our specially trained technicians will:

- ³⁵/₁₇ Connect the power flush machine to the vehicle at the oil filter housing and inject a safe and effective cleaner, which is specifically designed to remove oxidized particles that have been left behind from previous oil changes.
- ³⁵/₁₇ Install a top-quality engine oil additive that fortifies the oil, providing for optimum engine performance and long lasting engine protection.

Benefits of the Engine Flush:

- ✓ Clean the piston rings
- ✓ Improve engine compression.
- ✓ Increase power.
- ✓ Increase fuel economy.

Service Interval: Every 20,000 Miles or once a year on older vehicles.
